REVIEW DOMAIN LOADED ON MONDAY

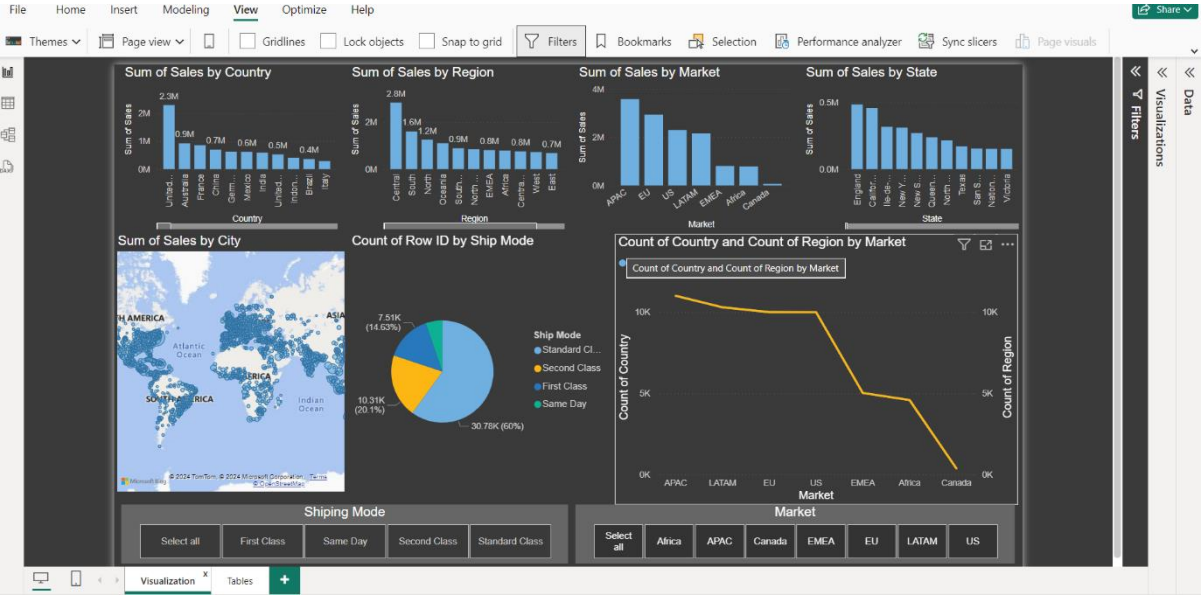

The Basic analysis of the sales and profit of the company

The screenshot displays the Microsoft Power BI Desktop interface. The top ribbon includes tabs for Home, Insert, Modeling, View, Optimize, and Help. The main workspace contains four visualizations:

- Sum of Sales by Category:** A vertical bar chart showing sales for Technology, Furniture, and Office Supplies.
- Sum of Profits by Country:** A world map with blue circles representing profit levels across various countries.
- Sum of Sales and Sum of Profit by Region:** A vertical bar chart comparing sales and profit across different regions.
- Sum of Sales and Sum of Profit by Market:** A horizontal bar chart comparing sales and profit across different markets.

The right-hand pane features the 'Visualizations' pane with icons for different chart types, the 'Filters' pane, and the 'Data' pane showing a list of fields like Category, City, Country, Customer ID, etc.
